### DAN Oxygen Provider

ADMINISTERING OXYGEN is among the most critical aspects of providing first aid for decompression sickness and lung-overpressure injuries. Yet the proper and safe administration of O<sub>2</sub> is a skill that goes far beyond what is covered in Rescue Diver training. This is why, for the past several years, knowledgeable dive professionals have turned to Divers Alert Network (DAN) for comprehensive Oxygen Provider training.

Underseas Scuba Center, a DAN Sponsor, offers Oxygen Provider training on a regular basis. This is an excellent course to take in conjunction with Emergency First Response and Rescue Diver. For more information, or to enroll, call (630) 833-8383.
