Deep Diver

Some of the best recreational diving takes place in water deeper than 60 feet. Such dives include wrecks and walls. The PADI Deep Diver course builds on the skills you acquire as part of the Advanced Open Water Diver course to help enable you to make these dives safely and more effectively.

This course can either be taken by itself, or as part of a comprehensive Master Scuba Diver program. For more information, or to enroll, call (630) 833-8383.
