Master Scuba Diver Program: Core Specialty Package

Unquestionably the highest certification any recreational scuba diver can achieve, the PADI Master Scuba Diver rating recognizes those divers who have:

- Earned Advanced Open Water and Rescue Diver certifications.
- Achieved at least five PADI Specialty Diver ratings.
- Logged at least 50 scuba dives.

This year, Underseas Scuba Center making it easier than ever for you to earn the Master Scuba Diver rating for yourself. We've taken our three most popular Specialty Diver courses — Underwater Navigator, Night Diver and Deep Diver — and packaged them together in a single program that will save you both time and money.

- You complete the academics through self study and three, one-evening classroom sessions.
- Open-water training can be completed in just two weekends — and, should you desire, you may be able to complete one or more additional specialties (such as Enriched Air Nitrox Diver) during this same time frame.
- You can save even more money by signing up for Advanced Open Water Diver, Emergency First Response, Rescue Diver and/or additional specialties at the same time you enroll in these core programs.

For more information, or to enroll, call (630) 833-8383.
